

Ford RV Chassis Benefits

A Solid Foundation to Build on

More Motorhomes are Built on Ford Chassis Than any Other Brand¹

Choosing Ford as the foundation for your motorhome is the smart decision. Having Ford on your side gives you the expert advantage of our decades-long breadth of experience and is available at thousands of locations – wherever the road takes you. All Ford chassis can be easily customized to fit your needs and can be equipped with state-of-the-art safety features like Ford Co-Pilot360™. Beyond acquiring your vehicles, it's just as important to obtain the right financing plan. Offering you choice incentives, Ford Credit® Lending Services aims to help keep your budget in line.

Built Ford Tough®

Whatever chassis you choose, you can rest easy knowing that it's been Built Ford Tough and subjected to millions of miles of brutal testing in our labs, proving grounds, and roads and highways across America.

It all starts with a rugged base—the chassis. More motorhomes are built on Ford chassis than any other brand.¹ From there, we offer multiple engine and wheelbase choices to fit your needs. So, whether you're cruising, towing, hauling or just out for the night, a Ford Motorhome can handle it all.
